LMC Connect

Call and Line Tariff

Delivering business communications

Our unique telecoms package for GP practices from Atech Network Services

Introducing LMC Connect

LMC Connect is a special telecoms package offering outstanding value exclusively for GP Practice members of LMC Buying Groups. The package includes:

Call charges

- 0.9p per minute - Local and National
- 8.25p per minute to mobiles
- No minimum or connection charges

Line rentals

- £11 per month per analogue line
- £12.50 per month per ISDN2e Channel
- £13.50 per month per ISDN30 Channel

This is brought to you by Atech Network Services, a specialist telecoms company responsible for all your line rental and call tariffs. Billing is carried out directly by Atech giving you complete peace of mind.

We currently provide billing for many surgeries with the existing rates being very competitive, especially as unlike most telecoms providers there are no minimum call charges, call setup fees or connection charges. Atech has already invested in our surgery billing base providing surgeries with a one-stop-shop option for all of their communications. When given the chance, we are yet to experience an instance whereby we are not able to save a surgery money against their existing provider.

Some of the key benefits of the LMC Connect Tariff via Atech:

- Greatly reduced telephone bills against virtually any existing provider
- Able to keep ALL of existing numbers
- Bills sent via Email unless otherwise requested to help reduce carbon footprint
- Organisation of all new line installations and line faults rectified
- Line installation charges are cheaper than paying BT directly
- It is completely FOC to move across to us
