July 2009

Dear Colleague

## **INTRODUCING A FANTASTIC NEW DEAL DESIGNED TO SAVE YOUR PRACTICE MONEY ON MEDICAL DEVICES' CALIBRATION AND PAT TESTING**

The Buying Group is delighted to be able to announce an excellent new deal that we have negotiated on your behalf with a regionally-based company, specialising in providing a service designed to meet all GP practices' needs for *medical device and instrument calibration and electrical equipment PAT testing*. Please study the details attached \*, from our newly approved supplier of these services, TAG Medical Limited.

As you will see, the list of devices they are able to test and calibrate is comprehensive, and the discounts offered, based on having a number of devices calibrated and tested at the same time, offer excellent value for money on this specialist service. We would like to draw your attention to the further offer, whereby linking PAT testing of your electrical equipment to the deal on calibrating medical devices, means you can enjoy additional savings.

We are confident this deal cannot be bettered, but, as always, we rely on you, our members, to inform us if any other companies are offering to do all that you require at a better price.

With best wishes for a reliable and comprehensive service at a reasonable outlay.

Yours sincerely  
LMC BUYING GROUP
